Profile

PhD candidate in Statistical Sciences at the University of Padova, developing advanced statistical methods for drug safety monitoring, with pharmacovigilance experience at the University of Verona and CHU de Bordeaux.

Research interests: Bayesian statistics and statistical modelling, survival analysis and clinical trials, and machine learning, text mining and NLP for health data. For publications and more details, [visit my website](#).

Experience

2018 – 2023 **Lecturer in Statistics**, Department of Statistics, Jimma University, Ethiopia.
2015 – 2016 **Graduate Assistant I in Statistics**, Department of Statistics, Jimma University, Ethiopia.

Education

2023 – 2026 **Ph.D., Statistical Sciences**, University of Padova, Italy. Thesis submitted; final defense expected January 2027.
Thesis title: *Advanced Statistical Methods and Models for Monitoring Drug Safety*.
2016 – 2018 **M.Sc. Statistics (Biostatistics)**, East China Normal University, Shanghai, China.
Thesis title: *A Bayesian Stochastic Gradient Descent Method*.
2012 – 2015 **B.Sc. Statistics**, Jimma University, Ethiopia.
Thesis title: *Time Series Analysis on Water and Irrigation Development*.

Skills

Programming R, Python, SAS, STATA, SPSS, Minitab, EPI Info; PyTorch, Hugging Face.
Tools $\text{\LaTeX}$, Markdown, Microsoft Office, GitHub.
Languages Afan Oromo & Amharic (native), English (C1), Chinese & Italian (A1).

Visiting Periods

Jan 2026 – Jun 2026 CRPV Bordeaux-DROM, CHU de Bordeaux (Bordeaux, France). Visiting period at the Service de Pharmacologie Médicale. Supervisor: Prof. Francesco Salvo.
Sep 2024 – Feb 2025 Centro Regionale di Farmacovigilanza del Veneto, University of Verona (Verona, Italy). Visiting period at the CRFV Veneto. Supervisor: Prof. Ugo Moretti.
